**Good evening, Yahya Khalif**

The simplified view helps you focus on the most common tasks for organizations like yours.

**For organizations like yours** [Show more](#)

## Set up email with a custom domain

Connect a domain that you own, or get a new one.

• •

I started in the Microsoft 365 Admin Center, which provides management for users, licenses, billing, and other organizational Microsoft 365 services.

confirmed that I had available licenses that could be assigned to newly created users.

## Assign product licenses

Assign the licenses you'd like this user to have.

Select location \*

Canada

Licenses (1) \*

☒ Assign user a product license

☒ **Microsoft 365 Business Basic**

23 of 25 licenses available

☐ Create user without product license (not recommended)

They may have limited or no access to Microsoft 365 until you assign a product license.

Apps (39)

I assigned Sarah a Microsoft 365 Business Basic license which gives the account access to the Microsoft 365 services included with the subscription.

information.

Roles (User: no administration access) ▼

Profile info ▲

Job title

Financial Analyst

Department

Finance

Office

Toronto

I configured Sarah's organizational information by setting her job title to Financial Analyst, department to Finance, and office location to Toronto. I left her role as a standard user with no administrative access, following the principle of least privilege

Before creating the account, I reviewed the assigned username, password configuration, product license, user role, and profile information.
