In this senario we don't currently have a Flnance Group yet. Lets make one

This group needs to be designed around collaboration members of this group need to be able to share resources such as mailbox,calendars and documents, Meanign the best group type in this situation is Microsoft 365 Group

- Basics
- ✕ Owners
- Members
- Settings
- Finish

Set up the basics

A Microsoft 365 group helps people collaborate. It includes an email address for contacting everyone in the group, and a SharePoint site for publishing information. To get started, fill out some basic info about the group you'd like to create.

Name *

Finance Team

Description

MICROSOFT 365 collaboration group finance department employees

Edit settings

 You'll be able to change settings, like Allow External Senders or Send Copies of Group Conversations to Members' Inboxes, after the group is created. [Learn more about all settings](#)

Microsoft 365 groups allow teams to collaborate by giving them a group email and a shared workspace for conversations, files, and calendars. Choose settings for your Microsoft 365 group.

Sending an email to this address will distribute it to all members of the group

Group email address *

finance

@Ktechmobile046.onmicrosoft.com

Privacy 

Public

Role assignment **Because this is the finance department admin roles are not needed**

☐ Allow admin roles to be assigned to this group

This setting will be permanent for this group. [Learn more about assigning roles to groups](#)

 Role assignment should be enabled only when Group is Private.

Add Microsoft Teams to your group

☒ Create a team for this group

Assign owners

Group owners have unique permissions. They can add or remove members, delete conversations from the shared inbox, and change group settings. Group owners can also rename the group, update the description, and more.

 You have to have at least one owner. We recommend adding two, so one can help out in the other's absence. If you plan to add Microsoft Teams to this group, all owners must have a license that includes Teams. [Learn more](#)

 Assign owners		
☐	Display name	Teams status
☐	Yahya khalif Yahyakhalif@Ktechmobile046.onmicrosoft....	

Add members

Group members have access to everything in the group, including group content like email messages, files, and a shared calendar. By default, group members can invite guests to join your group, but they can't edit group settings. [Learn more about what group members can do](#)

 Add members

As requested from the ticket, I now add Sarah as a member to the finance group

[Create group](#)

Finance Team group created

Finance Team group will appear in your list of Active teams & groups within 5 minutes.

Now that the group has been created, you can change these settings:

- Send copies of group conversations and events to group members' inboxes
- Let people outside the organization email this group
- Hide from my organization's global address list

Would you like to know more?

[Using groups to collaborate effectively](#)

Next steps

[Add another Microsoft 365 \(recommended\) group](#)

Active teams and groups

The Finance department group has successfully been created and is now a part of the active teams and group tab

In the event that I want to add another employee, I can simply select the desired group , and search for

a user which I then can add to the members list or even add another owner
